## ULTIMATE PRICE

BRETT WRIGHT

RRP \$28.99

The *Ultimate Price* details incidents in which police officers have lost their lives on duty in Australia.

The author recreates the feeling of the incidents by putting the reader there, at the location, be it the sticky heat of the tropical north, the dry winds of Central West NSW or the bone aching cold of Tasmania, the author paints a picture so the reader can see and almost feel what his happening.

The incidents vary from stabbings, shootings, vehicle accidents, drownings, suicides along with many more violent, terrifying and in some cases mysterious deaths.

## THE GRIFFITH WARS

TOM GILLING and TERRY JONES

RRP \$32.99

The story behind the murder that shocked a nation.

The assassination of Donald Mackay was meant to solve a problem for the mafia. Instead it roused the law-abiding citizens of Griffith to fight against the powerful criminal elements who had made their town synonymous with drugs and murder.

Drawing on the personal diaries and memories of Terry Jones – who, as the editor of the local newspaper, knew everyone and heard everything – *The Griffith Wars* reveals startling new evidence about one of Australia's most notorious unsolved murders. It also powerfully recounts the struggle for the soul of a country town still battling to shake off its criminal past.
